Shop Bot API Documentation

External API for the wallet flow: view products, check wallet balance, create a deposit request, then buy products using the wallet balance.

Base URL:

```
https://tunvnmmo.duckdns.org
```

Authentication

Account/transaction endpoints require an API key.

```
X-API-Key: YOUR_API_KEY
```

Public endpoints:

- `GET /`
- `GET /api`

Surfshark detected a data breach on this website

The Duckdns.org website experienced a data breach. 5 email addresses were exposed, together with personal and credential data. Leaked records include username, password hash and IP address. The validity of the data exposed couldn't be verified. Yet we're still informing you about a potential data breach – but keep in mind there's a chance of it being a false positive.

Username

Email

This website has been breached or has leaked its users' data

```
curl -H "X-API-Key: YOUR_API_KEY" \
  https://tunvnmmo.duckdns.org/api/balance
```

3. Get exchange rate

```
GET /api/rate
```

```
curl https://tunvnmmo.duckdns.org/api/rate
```

4. Create a wallet deposit request

```
POST /api/deposit
```

```
{
    "amount": 10,
    "currency": "usdt"
}
```

`currency` only accepts `usdt`. Wallet deposits via API do not support VND.

```
  -H "Content-Type: application/json" \
  -d '{"product_id": 85, "quantity": 1, "currency": "vnd"}' \
  https://tunvnmmo.duckdns.org/api/buy
```

6. Order history

`GET /api/orders`

```
curl -H "X-API-Key: YOUR_API_KEY" \
  https://tunvnmmo.duckdns.org/api/orders
```

Security / Limits

1. `5` wrong API key attempts within `60s` triggers a temporary block.
2. Request body size is capped at `64KB`.
3. Minimum USDT deposit is `1 USDT`.
4. Maximum `100` units purchased per request.
